Subject: SCANA

I have written my representatives and now I will attempt the email. Hopefully I will get a reply.

First, I have been following this mess with SCANA, but I receive my power from Duke Energy.

Why am I interested?

Well, this is just a crime and customers have suffered. Somehow when crimes like this occur, customers pay for service they never receive, executives receive big bonus checks, people suffer, executives continue to live the good life, and NOTHING is done. No one cares. The things that have been reported in the news does not even cover the local executives who benefited. A shame. Yet, no one writes and request justice.

I find it hard to believe that the executives in the Cayce office of SCANA did not know this was happening, yet continued to get high bonus checks, living the good life. This is not acceptable.

I understand going after the major executives, but the other executives at SCANA at the local Cayce office should not be forgotten as they either knew or should have known, yet let this happen. These employees should be fired and names published.

I have no problem with any energy company purchasing SCE&G after all the executives of SCANA have been exposed and investigated for criminal charges, to include restitution for this debt. No executive of SCANA should be allowed to continue employment in this action. Do the crime, do the time. They knew! They allowed customers to suffer! They got bonus checks! So who is laughing now?

I understand a decision will be made by the SC Public Service Commission. Well, it is your turn to get this right. For all the people in SC who have paid for services that they did not receive, at least give these customers the justice to know who did not take care of them. Simple as that.

I understand that a refund will be not be possible to administrate as years have passed, people have died, and who can determine who should get any refund check. I read about the possible of refund of \$1,000.00, but how can all be guaranteed satisfaction. What can be done is expose all who benefited and get them fired. Sell SCE&G to a company who will start over and provided power at a reasonable amount. Every customer will have to take the loss, but go forward with a reasonable power bill. Moving forward and getting these bills reasonable is about all that can be expected for the customer after all the SCANA executives have answered for this crime. Making more promises is just not acceptable and time to set this straight. Knowing that these executives of SCANA will be exposed, get restitution from each, and the long term result will be that these executives have a difficult time making a living in the future as who would hire them. (Of course, we know they have taken care of themselves.)

Well, I for one have spoken.

Up to the each person of this Public Service Commission.

Susanne Whiddon
